PRE-READING FOR ATTENDEE

To make the most of this meeting, the Compliance Head is requested to prepare the following:

1. Any documents describing your current compliance monitoring process
2. Any existing reports your team currently produces
3. Any recent audit findings or regulatory observations relevant to this discussion
4. A list of systems currently used by your team
5. Any previous attempts to solve this problem, and why they did not work

Note: Please bring whatever is available. There are no mandatory documents. The more context you can share, the better we can understand your situation.

GROUND RULES

1. Open and honest discussion — all information shared will be used solely for requirements

gathering and will be treated confidentially

2. No solution suggestions from the BA — this session is focused on understanding the business problem. Solutions will be proposed once the requirements are fully understood
3. All decisions and agreements made during this session will be documented and shared for confirmation before any work begins
4. If any question cannot be answered today — it will be logged as an open item and followed up separately
5. This session will be recorded using Otter.ai for transcription purposes — the recording will not be shared outside this engagement

DOCUMENTATION AND FOLLOW-UP

1. This meeting will be recorded for transcription purposes using Otter.ai
2. Structured JAD session notes will be shared with the Compliance Head within 2 working days for review and confirmation
3. A Business Requirements Document (BRD) will be produced based on the confirmed session notes and shared for sign-off before any build activity begins
4. Any open items identified during the session will be captured, logged, and followed up separately, with agreed timelines
5. No build activity will commence until the BRD is formally reviewed and signed off by the Compliance Head
